RE: 3-A Sanitary Standards 20-27; July 7, 2011

GMIPlasticsTM: Fluorocarbons/Fluoropolymers/Resins:

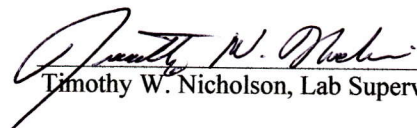

DuPont Teflon[®]: FEP, PFA and PTFE and DuPont Tefzel[®]: ETFE

Teflon[®] and Tefzel[®] are registered trademarks of the E.I. DuPont De Nemours Company.

These materials, per E.I. DuPont De Nemours Company Product Information Sheets,
are FDA 21CFR177.1550, USDA, 3-A Sanitary Standards 20-17 and US Pharmacopeia USP Class VI Compliant.

We, the undersigned, have evaluated your plastic materials listed above according to the test procedures
in the 3-A Sanitary Standards for Multiple-Use-Plastic Materials, Number 20-27. These materials are
covered by the Scope and the applicable definitions in these Standards, including Appendix K1.2.1, Color,
and the Standards for Acceptability in Section H and that the Percent Weight Change Observed in
Sections E10.1, F1/F3.1, F2/F3.1 do not exceed 0.05% as outlined below.

3-A 20-27 Section	% Weight Change Allowed				% Weight Change Observed			
	FEP	PFA	PTFE	ETFE	FEP	PFA	PTFE	ETFE
E – Cleanability Response	0.05%	0.05%	0.05%	0.05%	0.02%	0.02%	0.02%	0.02%
F – Product Treatment (Solution I)	0.05%	0.05%	0.05%	0.05%	0.02%	0.02%	0.02%	0.02%
F – Product Treatment (Solution J)	0.05%	0.05%	0.05%	0.05%	0.02%	0.02%	0.02%	0.02%
Average Weight Loss	0.05%	0.05%	0.05%	0.05%	0.02%	0.02%	0.02%	0.02%
